

MUHAMMAD USAMAH ZAID BIN YASIN RESUME

Born December 19th, 1983. FOUNDER & EXECUTIVE DIRECTOR of WAU Animation Sdn. Bhd.

My career began with strong momentum after graduating from Multimedia University in 2005, possessing a multiple award-winning animated short, "Misi Mustahak" in my portfolio. My first job placement landed me as a group leader despite being a fresh graduate, from there I moved on to a higher profile servicing company, enabling me to gain a lot of professional experience.

After working in the industry for over one year, I resigned my post in order to seize the opportunity of setting up an animation company with fellow team members from "Misi Mustahak" project, together with business investor, Tn Haji Burhanuddin and wife. My experience proved to be invaluable as I played a major role in setting up the working system and production pipeline of the company. Furthermore, our venture of producing a 3D animated feature was something no local company has tried pursuing back then.

As the Animation Director, I worked very closely with the film Director in discussing creative directions for our movie, "GENG" and I also worked very closely with the rest of the team in delivering our production loads. After completing the movie, I was entrusted to lead the "Upin & Ipin" series project. I then rose through the ranks becoming the Creative Director, and later on the Executive Director of Les' Copaque Production.

During my service, I held complete responsibility over all aspects of the animation operation that runs in the company, handling multiple projects at a time, and had over 5 directors as my direct reports. Aside from my creative and technical skills, I have learnt a great degree of leadership as well as management skills. I also had the opportunity to gain some experience in business growth and development involving the subsidiaries that operates under our group of companies.

After 7 magnificent years with Les' Copaque Production, I believe it is finally time for me to move along onto a new path. I left the company on 4th March 2013 to pursue my dream of making more blockbuster animation movies. Together with several trusted colleagues who share the same dream, we formed **WAU ANIMATION Sdn. Bhd.**
